Welcome to the Cisco Networking Academy Program web site. Our comprehensive, global e-learning program offers students an opportunity to pursue IT curricula through online instructor-led training and hands-on laboratory exercises. As a result, students can apply classroom learnings to actual technology challenges, which ultimately prepares tomorrow's workforce for life-long learning opportunities.

Cisco Networking Academy Program

Networking Academy Program Overview

The Cisco Networking Academy Program is a comprehensive program designed to teach students Internet technology skills.

Global Learning Network

Proven in the Academy program, this AVID-based infrastructure integrates the elements of e-learning.

Workforce Development

Workforce Development initiatives give Academy students and Alumni the real work experience employers are looking for.

Digital Divide

The Academy program helps bridge the gap by offering programs in key countries and to underserved populations.
